### Profile

A fresh front-end developer from Juno/HackerYou with a MSc in Bioresource Engineering. Builds not only functional, but aesthetic products that are a pleasure for the consumer to use. Coder/Environmentalist/Communicator. Let me prove myself as an asset to your organization.

### Skills

HTML 5	jQuery	Firebase	WCAG 2.1
CSS3 (SASS)	ReactJS	VSCode	Git
JavaScript	RESTful APIs	Responsive design	Adobe CC

### Projects

*MY JAVASCRIPT EXPO*

*ReactJS | Restful APIs | HTML | Sass*

Inspired by Wes Bos' Javascript 30, I decided to create my own little gallery of mini-apps. This is an ever-expanding project with regular new additions.

*Github repository | Live link*

*MY DISCUSSION BOARD*

*ReactJS | Firebase | HTML | CSS*

Looking some place where you can either have philosophical debates or mindless banter? Checkout this suite of chatrooms.

*Github repository | Live link*

### Experience

*Freelance Web Developer (Aug '20 - Sep '20)*

- Create intuitive, responsive websites for small companies and startups.

*Data Entry Associate - NUMERATOR INC. (Jan '19 - Oct '19)*

- Processed advertising data using proprietary video and data software.
- Classified over 80 weekly publications, dozens of TV channels, and hundreds of websites at ~40 ads/hr.

*Ontario Chapter Coordinator - SIERRA CLUB CANADA FOUNDATION (May '18 - Nov '18)*

- Managed communication and administration for a member base of over 7000.
- Drove board campaigns in energy, biodiversity, aboriginal rights.
- Crafted scientific grant proposals for sums of up to \$150,000.

### Education

*JUNO COLLEGE OF TECHNOLOGY (Jan '20 - Jul '20)*

Web Dev 101 | Accelerated JS | Immersive Web Dev Bootcamp

*MCGILL UNIVERSITY (Sep '12 - Oct '17)*

Bachelor of Arts and Sciences in Organismal Biology  
Master of Science in Bioresource Engineering
